Making a Difference in Food Security & Agricultural Policy: Opportunities for Nuffield Scholars

@UN_CFS        @AgriFoodNet        www.agrifood.net
What is food security?

Nutritional quality of food?  
Enough supply?  
Is there a market nearby?  
Can you afford it?  
Culturally appropriate  
Transport access?  
Pre existing health status and needs?  
Do you have a job providing enough income?  
Hygiene and sanitation?  
Food storage?  
All these factors over time  
Stability  
Availability  
Accessibility  
Utilisation
Sustainable Development Goal (SDG) 2:

- End hunger
- End all forms of malnutrition
- Double the productivity and incomes of small-scale food producers
- Ensure sustainable food production systems
- Maintain diversity of seeds, cultivated plants and farmed and domesticated animals.
The principal international policy bodies working in food security is the UN Committee on World Food Security (CFS).

CFS is an open platform: member states, research groups, the private sector, the civil society / NGOs, finance institutions, and philanthropic groups.
“Wow, it’s so nice to talk to an actual farmer.”

- An actual Minister of Agriculture
